
	<h2>NATIONAL PUBLIC INFORMATION CAMPAIGN</h2>	
---	---	---

**Who pays for the development and maintenance of our roads?  
Why does Namibia have a Road Fund Administration and a Roads Authority?**

**Who decides on the priority of road projects to be implemented?  
Who decides on the road user charges (e.g. vehicle license fees, cross border charges) to be implemented and at what level? What is Mass Distance Charges and why must heavy vehicle owners pay it in addition to other road user charges? Where does all the money that is collected go and who actually benefits from it?**

The Road Fund Administration will soon be answering these questions and many more, as it embarks on a National Public Information Campaign, starting on the 3<sup>rd</sup> April 2007. Come to these meetings and pose your questions, at a town near you on the following dates and venues:
